

Family Support

Transition Resource Center

Our [Transition Resource Center](http://www.abilitybeyond.org/transition-resource-center) offers families a one-stop resource of information that answers important questions on how best to prepare for their child's transition to adult life. Content, which includes topics relating to understanding IEP's and school based services, employment, housing, entitlements, legal matters, etc..., is delivered through engaging videos. We also provide supplemental worksheets to guide the planning process. Visit www.abilitybeyond.org/resource-center to learn more.

Futures Planning

Our experienced team of transition consultants offer personalized assistance to families who are navigating the education and social services systems as they strive to provide the best possible opportunities for their child. We assist with IEP evaluations and advocacy as well as career, college and futures planning.

Ability Beyond taught my child how to be a grown up, how to handle situations appropriately, and helped him to feel comfortable and confident as a person.

— E.W.'s mom
